Mickey Virus actress Elli Avram is a woman of many talents. Apart from being a talented actress, trained in belly dancing, ballet and salsa. Ellie's also an accomplished figure skater and rugby player and aside from all that, the beautiful actress has some exemplary culinary skills!

Elli recently spread the joy and 'sweetness' of Valentine's day on the sets of her debut film Mickey Virus produced by DAR motion Pictures, with a cake she baked to for the team. Both Manish and Saurabh have been huge fans of Elli's exceptional cooking and few things make her as happy as to see the smiles on the faces of the crew when they receive the tasty treats she prepares for them.

This is the Greek model's first valentine's in India and she wanted to thank the team to make her feel so much at home and what better way than to bake a cake on the sweetest festivals of all! To express her gratitude for all the warmth that has been bestowed upon her, Elli surprised the cast and crew of Mickey virus, with a gorgeous cake that she baked accompanied with full Band Baja on the sets. The cake vanished even before it hit the table and the sugar high induced some impromptu dance and masti to the tunes of ever so popular 'shaadi bands'. Surely after such a fun and sweetened Valentine's Day, Cupid's quiver must have run out of arrows.
