Bollywood Veteran actor Pran is recovering well after undergoing a surgical procedure. He is again admitted to hospital few days ago, Amitabh Bachchan informed on his blog.

Amitabh wrote on his blog, "Pran, colleague, senior and one of the finest gentlemen of this beautiful fraternity, lies in ICU, and I visit him...prayers for him for his speedy recovery. I speak to him, masked for purposes of infection riddance, and he sees but does not recognize. He has a tracheotomy done, so cannot speak. He was in hospital a few days back and I had visited him...he seemed perfectly all right...but he has had a relapse and I wish him well..."

Pran 92 is known for his negative roles in many Hindi films like Zanjeer, Don, Karz, Brahmachari etc. He was admitted to the hospital last month too, but was later discharged.
