Shahid bought in new years in L.A with a couple of close friends. Shahid was in celebratory mood since his last film R.. Rajkumar soared at the box office.

The young actor was spotted at various parties before he took a well deserved break to L.A. However before leaving, he was closely in touch with the team of Haider who informed him that the climate in Kashmir is extremely cold. Shahid finished his first shooting schedule of Haider in Kashmir, while it was autumn in end of October. However, this next schedule is right in the midst of extreme winter.

The winters this year are severe especially in the north belt. Hence while Shahid was in L.A, he took time off to shop for winter clothes. He picked up warm sweaters, jackets, gloves etc

The young actor not only shopped for himself but also picked up a few wollens for his team members who will be travelling with him.

Shahid's team is almost like family for him... Especially his valet and driver who have been with him over years. Shahid will be starting his second schedule of Haider end of January onward. It will be a 40 day long shooting schedule in Kashmir.

This is the second time Shahid is shooting with Vishal Bharadwaj. The two earlier teamed up for Kaminey.
