The month of March started with one of the best films Queen. A film which showed the emotional journey of a girl who has been left by the guy she loved became a big hit.

The movie caught up success like wild fire having very interesting story-line. After Queen another film that has caught people's attention is Ankhon Dekhi which again is an emotional journey of an old man.

Ankhon Dekhi is a story about a man, Bauji, played by Sanjay Mishra, who decides to believe only in what he sees or experiences himself than what the world has to say.

The film has received very good response by the critics. The people who have watched the film cannot stop raving about the film.

Within two weeks the film has already become talking point with a very out of the box story line.

Both the film has garnered immense appreciation for the extraordinary performance and the story line
