His manager and hair stylist are both girls and Farhan has often spoken to them about not taking their safety lightly. He has even given instructions to his security and crew to have the girls ahead of him in the entourage at all times while they are travelling. When they are travelling for film promotions, he is extremely careful on his account.

Farhan has been extensively travelling with his band Farhan Live across cities. In the recent past, they have visited cities like Goa, Bangalore, Allahabad, Ranchi, Belgaum, Kolkata. The band has got a fantastic response, and there are umpteenth fans who assemble for these shows. His fans want to meet him for pictures and autographs, which creates a slight security hassle.

Even in the sea of people, Farhan keeps an eye out for the girls in the team. He, at all times, wants to ensure they are safe and not being pushed or shoved.

Even when events shoot gets over late... He has asked the team to ensure the girls are escorted back home or at least logistics to drop them home safely have been looked into.
