Fashionista Kangana Ranaut is quite fond of Venice and the culture and fashion over there and interestingly, her character in the film Alka Singh is also shown to be quite fond of clothes and accessories from Europe. When Kangana got to know about this, she suggested that her character should be shown, as ordering her clothes and other accessories like sunglasses from there. She made sure the clothes the character wore were personally selected by her team which had a Venice Inspiration .. which gave the gangster Chambal character Alka Singh a cool edge.
