The Rani Mukerji starrer, Mardaani will have a special promotional song called the 'Mardaani Anthem' which has been recently shot.

Mardaani is the first film of Yash Raj Films which is without a song. Going by what the subject of the film is; human trafficking, they decided to have a strong flagship song which could be an empowering anthem instead of the usual songs. So the makers have come up with a promotional song featuring their lead and the protagonist of the film, Rani Mukerji

The anthem talks about the power of women. It signifies strength and the ability of women to win every social evil with vengeance.
