Veteran director-producer J P Dutta, who is known for his cult classic *Border*, is a perfectionist in his work. He is a strict person when it comes to work.

J P Dutta's company's new youth wing J P Gene will be giving chance to newcomers, where they can explore their talent. He will be launching a new director Binoy Gandhi and the film is launching his daughter Nidhi Dutta and Nafisa ali's son Ajit Sodhi.

When asked about giving chance to newcomers, J P Dutta says, "I have always believed in launching newcomers. But it's always been actors like Abhishek and Kareena, now this time I'm launching a new director Binoy Gandhi".

When asked director Binoy Gandhi about working with J P Dutta he said, " I heard that he was a task master but it's completely the opposite. He gave me full creative control on this project. He is an institute in itself and that shows in his body of work. I go to him whenever I feel I need help and he is more than a guiding figure in this film for me. I'm actually blessed to have a producer like him for my first film."
