Himesh Reshammiya is surely on a high these days. With the music of 'Khiladi 786', starring Akshay Kumar and Asin, already creating waves, it couldn't have been a better phase for the composer. He is co-producing the film and has also scripted it.

But there were also strong rumors in the Trade about Khiladi 786 not getting good number of cinema chains due to the release and competition with Aamir Khan's Talaash. But the Actor, Producer and Composer said "No! It's absolutely a False News, As Eros is taking care of it and we are getting equally good number of cinema chains along with good single screens. We are however yet to receive the cinema list from Eros."

On back-to-back giving successful musical hits such as Bodyguard, OMG-Oh My God, Bol Bachchan, Son Of Sardaar, Himesh says "I'm extremely happy and grateful to the audience and the film industry for their never-ending support. This only motivates me to work harder the next year. If I have been able to give 25 hits in a row this year, I am confident that with these new compositions and scripts, I'll deliver 50 hit songs next year,"
