Box Office Report Once Upon Ay Time In Mumbaai Dobaara released across 1500 - 1600 screens yesterday and did fantastic business due to national holiday. movie has now 2600 screens from today onwards and so the real test starts today.

movie has a peculiar case as there is ample confusion regarding real figure of the movie on Thursday. Production house announced figure of 14 cr nett (from 1600 screens!!!!) and other sites reporting 9 cr nett. But as per reliable trade sources the final day one figure is 11 cr.

movie started Friday on positive note and movie is looking to score on Friday. Movie had occupancy of 45% in noon show and movie can grow from evening onwards to better levels. As per early trends, movie should target figure of 14 cr nett today though a bit better figure is on the card if movie improves drastically later
