After proving his vocal prowess with tracks like Ishq Bulava and Dhat Teri Ki, the versatile singer and the new voice of Bollywood, Sanam Puri comes up with the latest youth anthem – “Main Hoon” – in association with Sony Pictures’ highly anticipated motion picture, THE AMAZING SPIDER-MAN 2 which releases in India on May 1st, 2014.

Under the music giant, Sony Music, the song will be featured as a promotional track for the movie starring Andrew Garfield, Emma Stone and Jamie Foxx. In a perfect integration, one of India’s most powerful and youthful new voices - SanamPuri will collaborate with Hollywood’s biggest franchise in India.

Exclusively composed for the Indian audiences, Sanam Puri’s ‘Main Hoon’ is a rock ballad envisaged more like a youth anthem that showcases the zeal of moving ahead. “Main Hoon” mirrors the sentiment that each one of us has the power to achieve more and reach great heights.

Adding on SanamPuri said, “It’s a great feeling and a huge learning experience. The Spider-Man franchise has massive fan following in India and to render a song for such a huge film is a dream come true. The song promises to be an anthem that is especially composed for our Indian audiences and I am confident it will appeal to all age groups. Sony Music and Sony Pictures have been extremely forthcoming and I don’t think this would have been possible without them.”
