Homi Adajania's much anticipated quirky comedy Finding Fanny's trailer is out! The film narrates the story of 5 odd balls played by Arjun Kapoor, Deepika Padukone, Dimple Kapadia, Naseeruddin Shah and Pankaj Kapur; who set out on a road trip to find love.

Talking about his five dysfunctional characters in the film Homi Adajania says, "Love makes normal people do nutty things. But what if they were already a little nutty to begin with? I absolutely love this film. My producer, Dinesh Vijan, knew I would drive him insane and went out on a limb to back me. Deepika and Arjun Kapoor signed onto the film before Chennai Express and Two States had released and didn't waiver because they had the same conviction. I couldn't make the film without Naseer because his character was written for him. As for Dimple, if I make a film without her she will have my head on a platter. A great joy I experienced was being introduced to Pankaj Kapur. He is a phenomenal actor and it was a fabulous experience directing him. Finding Fanny was shot and wrapped in 36 days, a shoot-experience that was almost as goof-ball and hilarious as the story itself."

Vijay Singh, CEO of Fox Star Studios, says, "We are very proud of Finding Fanny. Homi Adajania is a brilliant director & has created a film that is quirky ,with great comedy and will entertain everyone. We are releasing the film in English and Hindi and can assure you that the film will leave everyone in splits."

Producer Dinesh Vijan says, "Homi made cocktail for me and I'm making finding fanny for him. He would have actually killed me if I didn't make this film. Sometimes you just have to embrace the madness or you'll go mad yourself. And as much fun Finding Fanny is, what appealed to me is the absurdly fresh way love, heartache and happiness have been explored. The characters are as dysfunctional as my director is!"
