The centre of attention on the sets of Amole Gupte's *Hawaa Hawaai* was the children. Saqib Saleem who plays the protagonist in the film, waited patiently for his turn until after the children were shot. Saqib was very impressed by the depth on their performances.

Saqib says, "I am not one for 'Star treatment'. When you work in a film like *Hawaa Hawaai* and work with Mr. Gupte, the processes become as important as the final film."

Amole Gupte is really impressed by Saqib's dedication and says, "Saqib really believed in the script. It is so encouraging to work with an actor who is not only willing to put in that extra mile but truly become a member of the unit."
