Rio 2 brings back the lovable, eccentric characters from the original film (Blue, Jewel, Tulio, Linda and Nigel) in an even wilder, more colorful adventure with new music and dance sequences, new non-bird characters which add depth to the story and imagery.....and our very own B-town stars Imran Khan and Sonakshi Sinha!!!

The duo has lent their voices as main leads and macaws Blu and Jewel respectively to the Hindi dubbed version and showed special 20 minutes of clips and the hindi trailer yesterday at a suburban multiplex!!!

For the very first time two B-town icons have lent their voices for a Hollywood animation film and joining them in the event were 2 memorable characters from the Amazon: Nico and Pedro!!!

Sparking off the fun interactive event was Mr Sunder Kimatrai, Executive Vice President Asia Pacific, 20th Century Fox who gave a tantalizing glimpse into the exciting movie and warmly invited the duo on stage to talk more about RIO 2.
