Deepika is missing Bombay rains as she is away shooting for Tamasha for a long schedule in Corsica, France. While she is away, the actress is missing the Mumbai rains.

The city has been witnessing heavy showers this month but Deepika left for her shoot in July and has been there since.

Deepika loves the monsoons. She loves the view from her house during the rains.

She stays in a high-rise building which also overlooks the sea and the view from there is splendid.

She usually sits in her balcony in the mornings with her filter coffee and watches the rain.

The ace actor will be back in Mumbai by August.

However she will have little time to herself because once she wraps shooting for Tamasha, she will start shooting for Shoojit Sircar's Piku.

Juggling between work she is keen to spend some 'Me' time watching the rain.

Says Deepika "I love the monsoons and I thoroughly miss being in Mumbai during this time. I'll try and make the most of it on my return."
