Niketan Madhok who became the first finalist of Bigg Boss 6 is predicted to be the winner of Bigg Boss season 6. The young and dynamic numerologist Bhavikk Sangghvi has predicted that Niketan will be the winner of the show. He is the same guy who predicted for the last season winner Juhi Parmar which certainly became true.

Now he again explains why Niketan will be the winner .Here's how he explains his theory:

"Niketan was born on 9th October 1982 which makes him a Number 9 (Mars) person in numerology. Like all Librans, he is ruled by Number 6 (Venus) while his destiny number adds up to Number 3 (Jupiter)" explains Bhavikk.

"Niketan turned 30 during the start of the show itself which indicates that his best phase is just about to begin" predicts Bhavikk sounding optimistic about the young contestant's future. He continues "The grand finale episode of the show will be aired on 12th January 2013 and the compound number (sum total) arrived from this date is Number 1 (Sun). The name 'Niketan Madhok' vibrates on Number 46 (4+6=1)".

"The upcoming year 2013 which adds up to Number 6 (Venus) is likely to prove lucky for most Number 3, 6 and 9 people and as explained above after analyzing his numbers, all I can say is - Niketan is just 'destined' to win the popular reality show.

"My second choice for the winner will be Aashka Goradia (27th November 1985) and third in the mline will be Sana Khan (21st August 1987)" signs off Bhavikk keeping his fingers crossed
